Soft Skill

- Observation
- Decision making
- Multi-tasking
- Web Development
- Android Mobile App development
- Problem Solving
- Video Editing
- Graphics Designing.

Education Background

- Diploma in Computer Engineering
  JDT Islam Polytechnic College, Calicut
  In Progress

- Secondary School Leaving Certificate (SSLC)
  Kerala Government Board of Public Examinations
  Completed in 2022

About Me

For 5 years, I've been working independently, learning and freelancing instead of being employed by a company. During this time, I've become quite skilled in web development and creating Android apps. I'm good at solving problems and love learning new things on my own. My approach is a mix of creativity and logical thinking.

Professional Experience

Freelance Web & Mobile Developer (Self-Employed)
2019 – present

- Developed dynamic and responsive websites using ReactJS, building reusable components and implementing state management with tools like Redux.
- Designed and developed cross-platform mobile applications with Flutter, leveraging its widget-based architecture and hot reload feature to rapidly iterate and deploy.
- Created native mobile apps for iOS and Android platforms using React Native, optimizing performance and user experience through efficient code and platform-specific optimizations.
- Collaborated closely with clients to understand their business needs and translate them into technical requirements, delivering high-quality solutions that exceeded expectations.
- Implemented third-party integrations and APIs to extend app functionality, such as authentication, geolocation services, and push notifications.

Achievements

2024	Developed CGPA Calculator Android App & published on Google play store
2023	Completed Amazon's Online Course on Authentication & Authorization Certification.
2022	Certified in Remote Sensing Satellite & GIS by ISRO , endorsed by ISRO Scientist Dr. Abdul Salam
2022	Developed Online Learning Platform for Beginner Coding, endorsed by Former Minister Ahmed Deverkovil.
